

KARTHICK RAJA

DATA ANALYST

Chennai, TN | +91-6383268445 | karthiikarthii46@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst and aspiring Data Science professional with hands-on experience in ETL pipeline development, SQL-based data extraction, and Power BI dashboard design. Proficient in Python, MySQL, and Excel for data cleaning, exploratory data analysis (EDA), and KPI reporting. Proven ability to transform large datasets into actionable business insights that drive decision-making and improve operational efficiency. Seeking a Data Analyst Internship or Entry-Level Data Analyst role to apply analytical skills in a collaborative, data-driven environment.

TECHNICAL SKILLS

Languages:	Python, SQL (MySQL), Js	Visualization:	Power BI, Excel, Matplotlib, Seaborn
Libraries:	Pandas, NumPy, Scikit-learn	Tools:	Git, GitHub, MySQL Workbench, Streamlit
Data Analysis:	ETL, EDA, Data Cleaning, KPI Reporting	Soft Skills:	Data Storytelling, Analytical Thinking, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Data Science Intern Besant Technologies, Chennai	Feb 2026
- Cleaned and validated 50,000+ records using Python (Pandas), improving data quality and accuracy to 98% - Reduced ETL pipeline errors by 35% through structured data validation and error-handling techniques - Performed exploratory data analysis (EDA) on 5+ datasets, uncovering 12 actionable business insights - Wrote optimized SQL queries (joins, aggregations, subqueries, filtering) for business reporting and KPI tracking - Developed and published interactive Power BI dashboards to monitor KPIs, trends, and business performance metrics - Automated data preprocessing workflows using Python scripts, saving 8+ hours per reporting cycle - Collaborated with stakeholders to translate data findings into clear, visual reports supporting data-driven decision-making	

PROJECTS

API Performance Monitoring & Analytics System Python · SQL · Power BI
- Built an end-to-end ETL pipeline for 100K+ API log records with automated validation - Achieved 99.5% data consistency and improved reporting reliability - Designed dashboards to analyze SLA, latency, and failure rates - Improved incident detection and analysis speed by 30% - Implemented data quality checks and error handling mechanisms to ensure reliable reporting
Stock Portfolio Analysis Dashboard Excel · Advanced Formulas
- Processed and analyzed 10,000+ rows using pivot tables and advanced formulas - Applied VLOOKUP and INDEX-MATCH for data consolidation - Built an interactive dashboard with charts and slicers - Reduced reporting time by 40% - Performed trend analysis and comparative insights to support investment decision-making
AI Bird Species Recognition System Python · Scikit-learn · Streamlit
- Developed a machine learning model using MFCC-based audio feature extraction - Improved classification accuracy across multiple bird species - Built a Streamlit application for real-time prediction - Trained and evaluated model to improve prediction accuracy across bird species

EDUCATION

B.E. Computer Science and Engineering	Apr 2026
Hindusthan Institute of Technology, Coimbatore CGPA: 6.8
