

KARTHICK RAJA

DATA ANALYST

Chennai, TN | +91-6383268445 | karthiikarthii46@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst skilled in SQL, Python, Excel, and Power BI with hands-on experience in ETL pipelines, dashboard development, and KPI reporting. Experienced in analyzing large datasets, data cleaning, and transforming raw data into actionable business insights. Strong foundation in data visualization, exploratory data analysis (EDA), DAX, Power Query, and business intelligence reporting.

TECHNICAL SKILLS

Languages: SQL, Python

Power BI Skills: DAX, Power Query, Data Modeling, KPI Cards, Slicers, Drill-through, Dashboard Development

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Data Visualization & BI: Power BI, Excel

Core Skills: ETL, EDA, Data Cleaning, Data Validation, Business Reporting, Trend Analysis, Stakeholder Reporting, Business Intelligence

Databases & Tools: MySQL, Git, Streamlit

PROFESSIONAL EXPERIENCE

Data Analyst Intern

Besant Technologies, Chennai | Feb 2026

- Cleaned and validated 50K+ records using Python (Pandas), improving data accuracy to 98%
- Performed ETL processes including data extraction, transformation, and loading on structured datasets
- Developed and optimized SQL queries using joins, aggregations, and filtering for reporting and analytics
- Designed interactive Power BI dashboards using DAX, Power Query, slicers, drill-through, and KPI cards
- Conducted exploratory data analysis (EDA) and trend analysis to generate actionable business insights
- Automated data processing workflows, saving 8+ hours per reporting cycle
- Reduced ETL pipeline errors by 35% through data validation and error-handling techniques
- Supported stakeholder reporting and KPI tracking for business intelligence reporting

PROJECTS

API Performance Monitoring & Analytics System | Python · SQL · Power BI

- Designed and implemented an ETL pipeline for data extraction, transformation, and loading of 100K+ API log records
- Achieved 99.5% data consistency through validation and data quality checks
- Developed Power BI dashboards for data visualization and real-time performance monitoring
- Analyzed SLA, latency, and failure rates to support system optimization
- Improved incident detection and analysis speed by 30%

Business Performance & Customer Intelligence Dashboard | Power BI · SQL · Excel

- Processed & Analyzed customer and sales datasets to identify business performance trends and customer behavior patterns
- Developed interactive Power BI dashboards using DAX, Power Query, slicers, drill-through, and KPI cards
- Performed data cleaning, transformation, and data modeling for accurate reporting and analysis
- Built KPI reports for revenue, customer retention, sales growth, and regional performance tracking
- Conducted trend analysis and stakeholder reporting to support business decision-making
- Improved reporting efficiency through automated dashboards and business intelligence reporting

Stock Portfolio Analysis Dashboard | Excel · Advanced Formulas

- Processed and analyzed 10K+ rows using pivot tables and advanced Excel formulas
- Applied VLOOKUP and INDEX-MATCH for data consolidation and transformation
- Built interactive dashboards with charts and slicers for data visualization
- Reduced reporting time by 40% through automation
- Generated insights to support investment decision-making

EDUCATION

B.E. Computer Science and Engineering | Apr 2026

Hindusthan Institute of Technology, Coimbatore | CGPA: 7.2
